WHY ALL REVELATIONS

ARE NOT ALIKE

Worshipers at the Tabernacle had : somewhat lengthy session yesterday, For the greater part of the service C. W. Penrose was the speaker. He explained the discrepancies that seemed to exist between contradictory revelations given out by different prophets of the church. "Each revelation was manifested by God in his wisdom to his prophets," he said, "and each revelation was for the particular benefit of the generation to whom it was deof the generation to whom it was de-livered." What was the right thing for one generation of the people of Zion, he explained, might be wrong for the next. "Christ," he said, "in en-joining his disciples to go out and preach the gospel among the Gentiles, told only the eleven apostles. He told no one but them. Whoever is ordained among us goes out to spread the gosamong us goes out to spread the gos-pel among all nations broadcast, and the command to do so comes from the Doctrine and the Covenants.

"I do not wish to say anything against our friends and the ministers of the other denominations, but those who close their eyes to the true light will have to answer for it when the time comes. There are none so blind as those who won't see, and none so deaf as those who won't hear. We receive no money for our ministrations.'

BUYERS AND SELLERS FAR APART AS TO WOOL

Some of the boys who have been driven up to town from the wool camps by the stormy weather report that things are not moving as quickly as they might. Apart from the hindrance caused by the wet, wool is moving rather slowly. Buyers and sqliers find it difficult to get together, and there is still a difference of from 1½ to 2 cents per pound to be bridged before the sales will be as quick as they should. Heaven may temper the wind to the shorn lamb, but at present there is no tempering of the rain, wind and snow to the shorn sheep down in the camps. Sixty is said to be the total of the freight agents after the wool busi-ness, counting those in Utah, Idaho and Wyoming. For at least the next week or so a good many of them will have considerable spare time on their hands When the bad weather stops the wool will be too damp to permit of any shearing being done for a few days, and the strike situation in the Wyoming shearing camps will be another
